

ALLAN PAULRAJ V

Computer Science & Engineering (AI & ML) · Karunya Institute of Technology and Sciences
Coimbatore, India | +91 6374185190 | allanpaulraj2020@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Karunya Institute of Technology and Sciences — B.Tech CSE (AI & ML)

2024 – 2028 | Coimbatore, India

CGPA: 7.0 | Latest SGPA: 7.54 | Specialised Courses: Artificial Intelligence & Machine Learning

TECHNICAL SKILLS

Languages:	Python, Java, JavaScript (ES6+), C, SQL
Frontend:	React, Vite, HTML5, CSS3, Tailwind CSS, Vanilla JS, Pure SVG Charts
Backend & DBs:	FastAPI, Node.js, Express, SQLite, MongoDB, REST APIs, WebSockets
AI / ML:	TensorFlow, EfficientNetB0, Groq API (Llama 3.3 70B), Mistral LLM, Ollama, PyTorch
Tools & Platforms:	Git, GitHub, Vercel, Docker, Chart.js, Pytest, Postman

PROJECTS

PatchWise — AI-Powered Vulnerability Triage Platform ([Hackathon Finalist](#))

2025

- Built at Nexora/HackWithAMYP0 24-hr hackathon; combines CVSS, EPSS, CISA KEV, exposure, & service criticality into an explainable 0–100 risk score.
 - Implemented AI-driven plain-English remediation reports, deterministic multi-signal scoring pipeline, audit trail, and robust test suite.
- Tech: Python, FastAPI, React, Tailwind CSS, LLM Integration, Pytest, CISA KEV API

RJ — Personal AI Voice Assistant & System Daemon

2025

- Powered by Groq's Llama 3.3 70B with gesture-based wake detection (clap + snap) and continuous background listening daemon.
 - Voice commands for hands-free app launching, screen captures, volume & music control, clipboard reasoning, and persistent memory.
- Tech: Python, Groq API (Llama 3.3 70B), SpeechRecognition, pyttsx3, WebSockets, PyAudio, SQLite

NeuroAI — Brain MRI Tumor Classifier & Diagnostic Report Generator

2025

- Classifies brain MRI scans into 4 categories (Glioma, Meningioma, Pituitary, No Tumor) using fine-tuned EfficientNetB0 (97%+ accuracy).
 - Integrated Mistral 7B via local Ollama for structured diagnostic clinical reports; 100% on-device private inference without cloud dependencies.
- Tech: TensorFlow, EfficientNetB0, FastAPI, React, Mistral LLM, Ollama, Python

Body Blueprint Pro — AI-Powered Fitness & Analytics Web App

2025

- Full-stack fitness application tracking 14+ body measurements, automated PR detection, and interactive SVG charts without external charting libraries.
 - Features AI bodybuilding contest prep planner and workout/nutrition coach powered by Groq's Llama 3.3 70B.
- Tech: React, Vite, Node.js, Groq API (Llama 3.3 70B), Tailwind CSS, Vercel, Pure SVG Charts

EXPERIENCE & INTERNSHIPS

Lysa Solutions — Full Stack Developer Intern

Jun – Aug 2026 | Coimbatore, India

- Engineered backend APIs and responsive web interfaces during an on-site deployment, delivering features under active deadlines.

Oasis Infobyte — Data Science Intern

Jun 2026

- Built Python machine learning pipelines on industrial datasets, reinforcing practical model development, data preprocessing, and evaluation.

Fuzionest Private Limited — Software Developer Intern

Jun – Aug 2025

- Analysed enterprise sales datasets, detected statistical anomalies, and prepared analytical insights presented directly to leadership.

LEADERSHIP & ACHIEVEMENTS

- GDG On Campus Karunya:** Media & Content Production Lead — directing media production and developer brand assets (2025–Present).
- National Runners-Up:** Mindkraft 26 IoT 'Switch & Glitch' competition representing AIML department (2026).
- Nexora Hackathon Finalist:** Built PatchWise vulnerability triage platform in 24h competitive sprint (2025).

CERTIFICATIONS & COURSES

- CS205: Building with Artificial Intelligence** — Saylor Academy (Grade: 94.12 | 48 hrs | Jun 2025)
- CS260: Introduction to Cryptography & Network Security** — Saylor Academy (48 hrs | Jun 2025)
- Introduction to Generative AI** — Google (LLMs, Prompt Engineering, Responsible AI)
- AI Agents with MongoDB** — MongoDB (Building & scaling intelligent AI agents)
- DBMS — Master the Fundamentals & Advanced Concepts** — Scaler Topics (SQL, ACID, Normalization, Indexing)
