

ALLAN PAULRAJ V

Computer Science & Engineering (AI & ML) · Karunya Institute of Technology and Sciences
Coimbatore, India · +91 6374185190 · allanpaulraj2020@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

AI & ML undergraduate with a portfolio of independently built full-stack and AI-powered applications, taking projects from zero to deployment — from real-time systems with complex business logic to deep learning pipelines for medical imaging. Seeking roles to apply AI, backend, and full-stack skills for measurable impact.

EDUCATION

Karunya Institute of Technology and Sciences

2024 – 2028

B.Tech — Computer Science & Engineering (AI & ML) | Coimbatore, India | CGPA: 7.0 | Latest SGPA: 7.54

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, SQL

Frontend: React, Vite, HTML5, CSS3, Tailwind CSS, Vanilla JS, Pure SVG Charts

Backend & Databases: Node.js, Express, FastAPI, WebSockets, SQLite, MongoDB

AI / ML: TensorFlow, EfficientNetB0, Groq API (Llama 3.3 70B), Mistral LLM, Ollama, Prompt Engineering

Tools & Platforms: Git, GitHub, Vercel, Chart.js, MS Excel, Tkinter

PROJECTS

NeuroAI — Brain MRI Tumor Classification & Report Generator [GitHub](#)

- ▶ AI app that classifies brain MRI scans into four tumor categories and generates patient-friendly diagnostic reports.

RJ — Voice-Based Personal AI Assistant

- ▶ Always-on voice assistant that wakes on command, remembers context, and automates everyday PC tasks.

PatchWise — AI Vulnerability Triage & Risk Prioritisation [GitHub](#) | [Live Demo](#)

- ▶ Cybersecurity platform that ranks vulnerabilities by real organisational risk with an explainable 0–100 score.

Personal Portfolio Website allansspace.vercel.app | [GitHub](#)

- ▶ Portfolio designed and deployed from scratch to showcase my projects, experience, and achievements.

INTERNSHIPS

Fuzionest Private Limited — Software Developer Intern

Jun – Aug 2025

- ▶ Analysed company sales datasets in Excel, identified statistical outliers, and presented findings directly to the CEO.

Lysa Solutions — Full Stack Developer Intern

Jun – Aug 2026

- ▶ Built backend logic, server-side APIs and responsive client components in a 3-month on-site deployment in Coimbatore under active deadlines.

Oasis Infobyte — Data Science Intern

Jun 2026

- ▶ Fellowship-based internship applying Python ML pipelines to real-world datasets — model building, evaluation, and interpretation.

LEADERSHIP & ACHIEVEMENTS

GDG On Campus Karunya — Media & Content Production Lead

2025 – Present

Key Volunteer — Student Induction Program (SIP) for First Years

2026

Volunteer — National Service Scheme (NSS)

First Year

Top 10 Teams — Nexora Hackathon (PatchWise)

2026

Stage 2 Selected — HackWithAMYPO National Hackathon (in progress)

2026

Runners-Up — Mindkraft 26, Switch & Glitch IoT Event

2026

Winner (x2) — Mindkraft 25 · TUF Brothers & Shooting Stars

2025
